**Product Information**

|                   |                         |
|-------------------|-------------------------|
| Product Name      | Structural Steel S355J2 |
| Batch ID          | H-10987-02              |
| Surface Condition | Hot-rolled              |
| Production Date   | 2025-05-09              |
| Country of Origin | DE                      |

**Customs Classification**

|                      |  |
|----------------------|--|
| HS Code              | 720839   |
| Standard Description | Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, hot-rolled, not clad, plated or coated                                    |
| CN8 (EU)             | 72083900   |
| Description (EU)     | Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, hot-rolled, not clad, plated or coated, of a thickness of 4.75 mm or more |

**Product Norms**

|          |                   |
|----------|-------------------|
| Standard | EN 10025-2 (2019) |
|----------|-------------------|

**Material Designations**

|           |        |
|-----------|--------|
| Name (EN) | 1.0577 |
|-----------|--------|

**Product Shape**

|        |          |
|--------|----------|
| Form   | RoundBar |
| Length | 6000 mm  |

Diameter

50 mm

Heat Treatment

| Process       | Lot               | Furnace    | Date       |            |
|---------------|-------------------|------------|------------|------------|
| Normalizing   | HT-2024-11-15-B47 | FURNACE-03 | 2024-11-15 |            |
| Stages        |                   |            |            |            |
| Stage         | Temperature       | Duration   | Cooling    | Atmosphere |
| Austenitizing | 920 C             |            |            |            |

Chemical Analysis

Validation

---

We hereby certify that the material described above has been manufactured and tested in accordance with the requirements of EN 10204:2004 type 3.1 and the specified standards. The results comply with the requirements.

Individual Statements

- ✓ Material is of German origin
- ✓ 100% of the material is from European Union sources
- ✓ Material is of non-Russian origin (*EU Regulation No. 833/2014*)
- ✓ Material is conflict-free and sourced responsibly (*OECD Due Diligence Guidance*)
